2:25 pm

DVH APR [REDACTED]

Was with **FBI 17, 13, and 5**

when search of

Primary office

Potentially privileged removed to separate area and concealed
w/ sheet indicating potentially privileged doc until **FBI 12**
confirmed investigative from doc searching area from
where it came + then they put doc back

FBI 12

Seizing agent for items in office seized that were
potentially privileged

FBI 12 everything packaged clearly so 16G unaware of contents
not present in storage room for filter team work

FBI 12

never went in storage room

did go to residence to help didn't find anything

FBI 36

S15124

8:35 am

DTH APM [REDACTED]

FBI 36 and 5

waited in van at beginning → they were alternates - eventually called in as other 3 needed help
 Initially a plain view search → just when starting to open drawers + really search got word the storage room was accessible + **FBI 36** went down to storage room
 When **FBI 36** got to storage room - female agent from WFO there → door not yet been cut from mm SWAT used soft cutters to break lock
FBI 36 one of first into storage room

After **FBI 36** did plain view search to confirm no Attorney Client in open, photo went in and took initial photos then ERT went in and labelled everything
FBI 36 filter search took place in storage room & to ensure no case team member could see anything potentially privileged → **FBI 36 and 5** did search together when found privileged material in box, box sequestered when found classified in box, searched entire box for potentially privileged, if none found, sent out of room to next team → ERT

FBI 36 and 5 searched different boxes - both one at a time

FBI 36 ensured everything from a box went back into same box but order not practical to ensure it could be maintained

FBI 36 "shocked" when **FBI 36** saw classified - "undeniably clear" when **FBI 36** saw classified → obvious it was classified

FBI 36 recalls a couple of instances where **FBI 36** told case team classified material in box → didn't do it every time because happened too much just sent them out of storage room

FBI 36 and 5

went through every box in room
one or the other → in constant communication

Some not sent out → clothing etc nothing
responsive to search warrant

If **FBI 36** found box w/ "voluminous documents" **FBI 36**

Sent to search team even if **FBI 36** didn't see
classified docs responsive, or on side of curtain

FBI 36 has no recollection of taking classified out
and placing on top of box so easier to
find for case team

At some point

FBI 17 and 13

Came to help

Don't recall any discussion w/ **FBI 17 and 13**

about what to do if they find classified

FBI 36 and 5 directed **FBI 17 and 13** about which

boxes needed to be searched

FBI 36 did not place any cover sheets into boxes

FBI 36 does not believe any filter team member
had any classified cover sheets

FBI 36 never saw cover sheets in any box **FBI 36** searched

FBI 36 would carry boxes out of room where
search team would continue search + ERT would
photograph on butcher paper - search in ante room
happening on boxes cleared by filter while
filter team continued search in storage room

After done w/ storage room, **FBI 36** went to residence

Initial walk through to look for privileged info

ERT came into photo everything

Case team still searching at storage room when filter
team went to residence

FBI 36 and 5 **FBI 17 and 13** all to residence together →

per **FBI 36** recollection

In residence w/ Secret Service Chaperones

FBI 36

[REDACTED] remembers hearing locked door led to roof and was under construction so it was not going to be opened

FBI 36

[REDACTED] done after 8:15 a.m.

FBI 36

[REDACTED] did not take any notes nor author any 302

FBI 36

[REDACTED] does not recall any after action or lessons learned kind of meetings besides one w/
Kern Gilbert and Dave Riskin

FBI 13

DRA APM [REDACTED]

Briefly in ante room but then to office

mostly in other 2nd door on left

FBI 13

not part of initial walk through

FBI 13

not involved in desk search

FBI 13began search of closet alone, started on left side
of closet**FBI 13**searching box of documents when **FBI 5** came into Closet
to help w/ search**FBI 13**

did majority of search of box but thinks

FBI 5

assisted for a little bit

FBI 13looking for legal letterhead, indication of correspondence
w/ lawyers etc first**FBI 13**also looking for classification banners, not content
or presidential recordsBlue box, **FBI 13** found no privileged but
pertinent docs inside**FBI 13**told tell young male agent from WFO
about pertinent**FBI 13**

also communicated through [REDACTED]

FBI 13

searched box inside closet

FBI 13

searched entire box

found banner markings indicating classified

obvious when [REDACTED] come across class doc that
it was classifiedDores recall seeing cover sheets inside box
don't know one way or other if cover
sheets in photo come from boxAlso did see docs w/ text indicating actual
classified info header/footer, portion marksDid not pay attention to content b/c knows content
there that is classified

When [REDACTED] and [REDACTED] went to storage room →

[REDACTED] already there, [REDACTED] asked what [REDACTED] could do to help, [REDACTED] pointed [REDACTED] to boxes that needed to be searched still

[REDACTED] searched boxes looking for same as in other

One box at a time, box to box integrity a priority

Did not focus on maintaining order nor did [REDACTED] think [REDACTED] could even if [REDACTED] was focused on it

Impossible to maintain exact order, things thrown into boxes - some time for blue box in other closet

When [REDACTED] found responsive non-privileged [REDACTED] alerted others in storage room and boxes then given to case team

[REDACTED] "I believe I did" when asked if [REDACTED] pulled classified out and placed on top

Thousands of docs inside box, impossible to keep in order, pulled and placed on top → easier for case team. Did not put any placeholders inside box ^{to find}

5 boxes pulled for potentially privileged →

helpful processing or way out but not

[REDACTED] involved in taping segregating in storage room did not take any notes nor write any BOCs

FBI 5

DVR APM

First place [REDACTED] went was 45 office

[REDACTED] not involved in tipping drawer in FLOTUS' desk

Does not recall if photo of drawer is exactly as the drawer looked when [REDACTED] opened it

Protocol is photo evidence in place before touching that was how they did everything that day

[REDACTED] went into closet first then [REDACTED] joined him

[REDACTED] searched low boxes or boxes removed from shelves

[REDACTED] did not move boxes as [REDACTED]

[REDACTED] did help [REDACTED] search blue box

Searched everything in closet, enough room so no need to take things out

At time photo taken w/ Cover Sheets [REDACTED] already in storage room

Not involved in placing cover sheets

[REDACTED] focused on classified markings not contents just looking for markings that indicated it was classified

Don't recall if cover sheets were in blue box

[REDACTED] deferred to [REDACTED] or what needed to be done in closet as [REDACTED] was there first

[REDACTED] called out to go to storage room while in closet, [REDACTED] stayed to finish closet

[REDACTED] already there when [REDACTED] got to storage room

In storage room [REDACTED] searched one box at a time

No chance docs from one box ended up in another

"To best of my ability" [REDACTED] kept contents in order impossible to maintain exact order
Letters, newspapers, post-it notes, golf balls etc

Responsive non-privileged boxes handed to team outside storage room → gave entire box

No - responsive PT to right hand side of storage room
When **FBI 5** handed off **Sec [REDACTED]** did her best to ID

where responsive docs were while maintaining order as well as could be

Not possible to maintain exact order as when first opened

When **FBI 13** + **FBI 17** came to help

FBI 13 thru whole time

FBI 5 or **FBI 36** give direction on what to search to

FBI 13 and 17

When left storage room to go to Residence

work still being done outside storage room

Secret Service w/ them whole time in Residence

didn't find anything there

FBI 5 did not take any notes or write any 302

FBI 5 did find classified docs in boxes in storage room

very obvious when class found, banner markings
easy to find
